2017-18: Web Developer@ Rhinorecon Group

- Develop custom web-based solutions for various companies and public institutions
- Liaise with stakeholders on digital strategy for growth, in terms of topline and "brand identity"
- Reporting with analytics data from Web and mobile platforms.
- Design project tracking and automation spreadsheets for smaller design studios to streamline workflows. This ended up being a small product the company was able to get recurring revenue on.
- Help clients move to cloud-based solutions offered by various IAAS vendors like AZURE and AWS.

Jan 2019 - Jan 2020: Front-end Web developer @ Firstview Media

- Mainly frontend development of web apps for clients
- UI and micro-interaction implementation
- Custom Wordpress and Laravel backend apps
- Customised HTML email campaigns
- Frontend for Vuejs/Nuxt mobile apps

Feb 2020 - Current: Web developer @ AFK

- Set up streaming platform UIs based on Headless Wordpress
- Payments integration
- Work with outsourced operations guys on Google Cloud deployments
- Collaborate with backend team on features, bug detection, tickets
- Set up serverless functions for custom Auth querystring
- Manage 3rd party service integration for Analytics, data management and compliance.
- General maintenance
